

Volume 1 • Number 1 • March 2019

QK1916251

CN 31-2156/O1

CAMC

Communications on Applied Mathematics and Computation

应用数学与计算数学学报

Editor-in-Chief Chi-Wang Shu

万方数据

Springer

Communications on Applied Mathematics and Computation

Volume 1 · Number 1 · March 2019

Focused Issue in Memory of Professor Ben-yu Guo, Part 1

Guest Editors: Benqi Guo · Heping Ma · Jie Shen · Chi-Wang Shu · Li-Lian Wang

FOREWORD

Foreword by the Editor-in-Chief

C.-W. Shu 1

PREFACE

Preface

B. Guo · H. Ma · J. Shen · C.-W. Shu · L.-L. Wang 3

ORIGINAL PAPERS

Analysis and Approximation of Gradient Flows Associated with a Fractional Order Gross–Pitaevskii Free Energy

M. Ainsworth · Z. Mao 5

A Strong Stability Preserving Analysis for Explicit Multistage Two-Derivative Time-Stepping Schemes Based on Taylor Series Conditions

Z. Grant · S. Gottlieb · D.C. Seal 21

Unconditionally Stable Pressure-Correction Schemes for a Nonlinear Fluid-Structure Interaction Model

Y. He · J. Shen 61

A Cubic H^3 -Nonconforming Finite Element

J. Hu · S. Zhang 81

Superconvergence of Energy-Conserving Discontinuous Galerkin Methods for Linear Hyperbolic Equations

Y. Liu · C.-W. Shu · M. Zhang 101

Multiscale Radiative Transfer in Cylindrical Coordinates

W. Sun · S. Jiang · K. Xu 117

Domain Decomposition Preconditioners for Mixed Finite-Element Discretization of High-Contrast Elliptic Problems

H. Xie · X. Xu 141

Indexed in *Current Contents*, *Index Medicus*, and *EMBASE*.

Instructions for Authors for *Communications on Applied Mathematics and Computation* are available at <http://www.springer.com/42967>
