Communications on Applied Mathematics and Computation

Volume 5 · Number 2 · June 2023

Focused Issue on High Order Numerical Methods for Evolutionary PDEs

Guest Editors: Arturo Hidalgo · Remi Abgrall · Michael Dumbser · Jan Hesthaven · Claus-Dieter Munz · Eleuterio F. Toro

EDITORIAL

Preface to the Focused Issue on High-Order Numerical Methods for Evolutionary PDEs

A. Hidalgo · M. Dumbser · E.F. Toro 529

ORIGINAL PAPERS

Neural Network-Based Limiter with Transfer Learning

R. Abgrall · M. Han Veiga 532

Analysis of the SBP-SAT Stabilization for Finite Element Methods Part II: Entropy Stability

R. Abgrall · J. Nordström · P. Öffner · S. Tokareva 573

A High-Order Conservative Semi-Lagrangian Solver for 3D Free Surface Flows with Sediment Transport on Voronoi Meshes

M. Bergami · W. Boscheri · G. Dimarco 596

Stationarity Preservation Properties of the Active Flux Scheme on Cartesian Grids

W. Barsukow 638

Construction of Conservative Numerical Fluxes for the Entropy Split Method

B. Sjögren · H.C. Yee 653

A Sub-element Adaptive Shock Capturing Approach for Discontinuous Galerkin Methods

J. Markert · G. Gassner · S. Walch 679

A Low Mach Number IMEX Flux Splitting for the Level Set Ghost Fluid Method

J. Zeifang · A. Beck 722

A Posteriori Stabilized Sixth-Order Finite Volume Scheme with Adaptive Stencil Construction: Basics for the 1D Steady-State Hyperbolic Equations

G.J. Machado · S. Clain · R. Loubère 751

AENO: a Novel Reconstruction Method in Conjunction with ADER Schemes for Hyperbolic Equations

E.F. Toro · A. Santacà · G.I. Montecinos · M. Celant · L.O. Müller 776

Multi-dimensional Simulation of Phase Change by a 0D-2D Model Coupling via Stefan Condition

A. Drouillet · R. Le Tellier · R. Loubère · M. Peybernes · L. Viot 853

Numerical Simulation of Bed Load and Suspended Load Sediment Transport Using Well-Balanced Numerical Schemes

J.C. González-Aguirre · J.A. González-Vázquez · J. Alavez-Ramírez · R. Silva · M.E. Vázquez-Cendón 885

Second-Order Invariant Domain Preserving ALE Approximation of Euler Equations

J.-L. Guermond · B. Popov · L. Saavedra 923

Numerical Approach of a Coupled Pressure-Saturation Model Describing Oil-Water Flow in Porous Media

P. Luna · A. Hidalgo 946

Abstracted and Indexed in *Baidu, CLOCKSS, CNKI, CNPIEC, Dimensions, EBSCO Discovery Service, El Compendex, Emerging Sources Citation Index, Google Scholar, Mathematical Reviews, Naver, OCLC WorldCat Discovery Service, Portico, ProQuest-ExLibris Primo, ProQuest-ExLibris Summon, SCImago, SCOPUS, TD Net Discovery Service, Wanfang, zbMATH*
