万方数据

目次

研究 · 设计

不锈钢三维打印技术的研究现状 ..... 雍 凯 左黎明(1)

全球导航卫星系统惯性导航系统组合导航的算法综述 ..... 倪安庆 李 军(4)

基于免疫优化算法的无人车间配送中心选址 ..... 石 旭 汪 伟 王汝佳 等(9)

磷酸铁锂退役电池储能电站运维技术研究 ..... 何海斌(16)

锂离子电池荷电状态估算方法研究 ..... 刘传林 李 军 许 林(21)

基于逆向工程的防坠器设计与加工 ..... 郑向周(27)

分析 · 优化

组合微织构刀具织构参数的优化 ..... 祁志旭 陈兴媚 刘 洋 等(32)

汽车起重机转台有限元分析与结构优化 ..... 张丹丹 夏旭东(37)

地铁车辆吊装螺栓强度分析 ..... 张栋梁(41)

箱式货车铝合金货箱性能分析 ..... 刘施洋 张德伟 李耀成 等(45)

铝型材滑移与断裂的分析及保护措施 ..... 常怀德 钟伟添 刘 健 等(49)

生产 · 制造

乘用车底盘合装生产线 ..... 沈思良(53)

大型油轮锚系结构分段装配技术 ..... 杨九九(57)

铸造框架装配冷板基准面变形分析 ..... 仇 志 魏鹏鹏 马小杰 等(62)

催化裂化催化剂生产装置的改造与新技术应用 ..... 闫俊杰 吴慧军(67)

经营 · 管理

论制造产业集群智能化数字化发展 ..... 熊立贵 蔡昭华 涂志刚(73)

能源产业转型背景下战略性经营管理人才发展举措与机制 ..... 朱兆开(76)

## CONTENTS

### Research · Design

|                                                                                                                           |                                        |
|---------------------------------------------------------------------------------------------------------------------------|----------------------------------------|
| Current Research Status of Stainless Steel 3D Printing Technology                                                         | Yong Kai Zuo Liming ( 1 )              |
| Algorithm Review of GNSS/INS Integrated Navigation System                                                                 | Ni Anqing Li Jun ( 4 )                 |
| Site Selection of Unmanned Workshop Distribution Center Based on Immune Optimization Algorithm                            | Shi Xu Wang Wei Wang Rujia et al ( 9 ) |
| Study on Operation and Maintenance Technology of Decommissioned Lithium Iron Phosphate Battery Energy Storage Power Plant | He Haibin (16)                         |
| Estimation Method of SOC of Lithium-ion Battery                                                                           | Liu Chuanlin Li Jun Xu Lin (21)        |
| Design and Processing of Fall Arrester Based on Reverse Engineering                                                       | Zheng Xiangzhou (27)                   |

### Analysis · Optimization

|                                                                             |                                                |
|-----------------------------------------------------------------------------|------------------------------------------------|
| Optimization of Texture Parameter of Combined Microtexture Tool             | Qi Zhixu Chen Xingmei Liu Yang et al (32)      |
| Finite Element Analysis and Structure Optimization of Truck Crane Turntable | Zhang Dandan Xia Xudong (37)                   |
| Strength Analysis of Hoisting Bolt for Metro Vehicle                        | Zhang Dongliang (41)                           |
| Performance Analysis of Aluminum Alloy Container of Box-type Truck          | Liu Shiyang Zhang Dewei Li Yaocheng et al (45) |
| Analysis and Protection Measures of Slip and Fracture of Aluminum Profile   | Chang Huaide Zhong Weitian Liu Jian et al (49) |

### Production · Manufacturing

|                                                                                         |                                            |
|-----------------------------------------------------------------------------------------|--------------------------------------------|
| Passenger Car Chassis Assembly Production Line                                          | Shen Siliang (53)                          |
| Segmented Assembly Technology of Large Oil Tanker Anchor Structure                      | Yang Jiujiu (57)                           |
| Deformation Analysis of Reference Plant during Assembly of Casting Frame and Cold Plate | Qiu Zhi Wei Pengpeng Ma Xiaojie et al (62) |
| Transformation and Application of New Technology in FCC Catalyst Production Unit        | Yan Junjie Wu Huijun (67)                  |

### Operation · Management

|                                                                                                                         |                                          |
|-------------------------------------------------------------------------------------------------------------------------|------------------------------------------|
| On Intelligent and Digital Development of Manufacturing Industry Cluster                                                | Xiong Ligui Cai Zhaozhua Tu Zhigang (73) |
| Measure and Mechanism for Development of Strategic Management Talent under Background of Energy Industry Transformation | Zhu Zhaokai (76)                         |
