定价: 10.00元/期

万方数据

# 目次

## 原理与设计

- 半潜船波浪载荷计算研究.....吴宗铎 宗智 钱昆(1)
- 船舶消防水系统中消防栓间距的优化设计.....  
.....严浪涛 韩雪峰 罗培峰(5)
- 气囊下水的安全性研究.....吴剑国 孙燕 马剑 方新康(7)

## 船体与舾装

- MPF1000总段建造技术研究.....黄俊成(10)
- 船体生产设计精度控制技术探讨.....马桂云 林洪玲 郑素青(14)
- 集装箱船改装为沥青船的若干技术问题探讨.....张二敏(17)

## 设备与设施

- 三种吊马结构形式及力学性能比较研究.....  
.....张健 刘建峰 季建忠 尹群(19)
- 船舶柴油机曲轴裂纹的动态监测研究与磁记忆参数分析.....  
.....廖建彬 蔡振雄(23)
- 基于PLC的2 500t起重船自动电站.....黄兵(27)
- 普通造船用弯管机应用于海洋平台弯管可行性研究.....张庆管(31)
- 基于船舶VDT技术的移动厕所开发研究.....葛志祥 朱静(33)

## 焊接与切割

- 45mm厚板EH36级钢SEGARC法焊接工艺试验及应用.....  
.....孙斌 王海晨 李建萍 张跃峰(36)

## 涂装与防腐

- 船舶压载舱壳舾涂一体化技术要求研究.....贾恒涛(40)

## 信息技术应用

- 基于Em-plant的船舶建造流程仿真.....谢磊 柳存根(43)

# Contents

## Ship Principles & Design

Research on the calculation of wave loads for semi-submersible vessel ..... (1)  
Keywords: Semi-submersible vessel/ Wave loads/ Design wave/ Direct method

Optimization design for the interval between fire hydrants in the fire extinguishing system of marine ..... (5)  
Keywords: Fire extinguishing system/ Interval/ Optimization design

Study on the safety of airbag launching ..... (7)  
Keywords: Ship launching/ Airbag launching/ Structural analysis/ Safety standard

## Hull Structure & Outfitting

Investigation on the block-building technology for MPF1000 ... (11)  
Keywords: Block-building technology/ Closure up underwater/ Section division/ Precision control

Discussion on the precision control technology for hull production design ..... (14)  
Keywords: Hull production design/ Precision control// Compensation quantity/ Precision test

The study on some technical problems of asphalt carrier refitted by container ships ..... (17)  
Keywords: Container ship/ Asphalt carrier/ Damaged stability/ Intact stability/ Pollution

## Processing Equipment & Facilities

The comparing study on the structure form and the mechanics property of three lifters ..... (19)  
Keywords: Lifter/ Finite element/ Mechanics property

Research on the dynamic monitoring of the crack in crankshaft of marine diesel engine and analysis for magnetic memory parameter ..... (23)  
Keywords: Diesel engine/ Crankshaft/ Metal magnetic memory/ Dynamic monitoring

The automated power station of 2 500t floating crane based on PLC ..... (27)  
Keywords: Ship power station/ Automation/ Programmable controller/ Network control

The feasibility study on the bending pipe for the offshore platform using the bending pipe machine in general shipbuilding ..... (31)  
Keywords: Offshore platform/ Pipe bending machine/ Roundness of section/ The thinning rate of pipe wall

Study on the design and realization of moving restroom based on VDT ..... (33)  
Keywords: Fresh water generator treatment/ Moving restroom/ Vacuum distillation treatment

## Welding & Cutting

Welding technology experiment and application of SEGARC method for the EH36 steel plate with 45 mm thickness ..... (36)  
Keywords: SEGARC/ Thick plate welding/ High heat-input/ High strength steel

## Painting & Anti-corrosion

Study on the integration technology of hull, outfitting and painting for ship ballast tank ..... (40)  
Keywords: Ballast tank/ The integration of hull, outfitting and painting

## IT Application

The process simulation of shipbuilding based on Em-plant ..... (43)  
Key words: Shipbuilding process/ Simulation model
