CONTENTS IN BRIEF

Original Articles

- Role of pulmonary neutrophils aggregation on pathogenesis of acute respiratory distress syndrome ZHAO Zan-mei, ZHAO Jin-yuan (163)
Effects of silicon dioxide dusts with different diameters on mRNA expression of antioxidant enzymes in HaCaT cells HONG Wen-xu, YANG Xi-fei, ZHANG Bing, et al (168)
Changes of CCL6 and SP-D in serum and Broncho-alveolar lavage fluid of silicosis rats HA Kun, ZHANG Yan-shu, HAN Gang, et al (172)

- Intervention strategy and its assessment of effect on health promotion in a large electronic enterprise ZHANG Qiao-yun, WANG Jian-feng, ZHANG Heng-dong, et al (177)
Research on relationship between occupational stress and burnout of prison policemen and their influencing factors WANG Yang, MA Lei, SUI Guo-yuan, et al (182)

Clinical Practice

- Clinical analysis of huge volume simultaneous bilateral whole lung lavage in 100 cases of stage one coal worker's pneumoconiosis patients WANG Nan, XUE Jing-ru (185)
Clinical analysis on 86 cases of old patients of coal worker's pneumoconiosis complicated severe pneumonia GAO Jin-song, LI Feng (187)
Analysis on 15 cases of acute paraquat poisoning GAO Lin, LU Xiao-bo (188)
Analysis on chronic radiation skin damage due to occupational exposure ZHAO Feng-ling, FU Bao-hua, CHEN Yu-hao, et al (190)
Application and experience of patch test in diagnosis of contact dermatitis JIA Yun-ling, SUN Jie, WANG Xing-gang (191)

- Follow-up and analysis on silicosis in peasant workers of a quartz sand plant during 2002—2009 LIAO Ping-tai, BAO Fu-zhen, HE Yu-hong, et al (193)

Special Communications

- Effect of acrylamide exposure on calcium homeostasis in NB-1 cells LI Chong, WANG Qian, CAO Yan-hua, et al (194)
The relationship between ACE gene polymorphism and essential hypertension in underground coal-workers WANG Dong, YUAN Ju-xiang, FENG Fu-min, et al (197)

Reviews

- Clinical significance of crystalluria GUAN Li, DING Li-hua, CHEN Ming, et al (200)
Application of proteomics technique in screening of silicosis related proteins LIU Jia-qi, SUN Ying, ZHENG Su-qin (204)
Study on effect of lead on children health MA Can, SUN Cheng-ye (207)

Experimental Study

- Study on genotoxicity of fine particulates from cooking fumes in AEC II cells WANG Lei, WANG Yong, CAO Ji-yu, et al (210)
Relationship between genetic polymorphism of transforming growth factor-β -800G/A and pneumoconiosis susceptibility LI Juan, FAN Xue-yun, LIU Ya-nan, et al (212)
Influence of brominated diphenyl ethers-209 exposure on genital system of male rat LI Xiang, TANG Yan, LI Hua, et al (214)

Investigation Report

- Investigation and analysis on health status of migrant female workers in electronic, jewel processing and pharmaceutical industries YU Wen-lan, ZHOU AN-shou, ZHOU Jian-jiao, et al (216)
Analysis of general investigation on gynecological diseases in 5580 female workers of a iron-steel corporation MA Qing-kun, CAO Cui-fang, WU Xue-song, et al (219)
Assessment on life-quality related with respiration and survey on its impact factors in pneumoconiosis patients SUN Jin-kai, HAN Bing, YAN Bo, et al (220)
Detection and analysis of occupational hazards of strong chlorine line in a chemical production factory NIE Chuan-li, XIAO Xiao-li, WANG Ping, et al (222)
