Contents

Navigation & Communication

- The Analysis and Compensation of Scale Factor Error Based on Rotating SINS *Gao Wei, Zhang Ya, Ben Yueyang, et al* (1)
- Development Strategy of Marine Simulator in Light of the Manila Amendments to STCW Convention *Jin Yicheng, Yin Yong* (5)
- Discussion of Information Sharing Principle for Federated Filter *Yuan Gannan, Yuan Kefei, Zhang Hongwei, et al* (11)
- Study of Novel Decision Support System of Ship Intelligent Collision Avoidance *Guan Binglei, Ge Quanbo, Duan Shengan, et al* (16)
- Precision Prediction and Experimental Study of Positioning Precision of Changhe II System at Sea *Wang Chengzheng, Li Wenkui, Gao Jingdong, et al* (23)
- Timing Synchronization of Multicarrier Underwater Acoustic Communication System *Zheng Jiahun, Shao Jinxing* (27)
- Study on Algorithms of Adaptive Modulation in Wireless Communication System *Lei Guowei, Wei Debiao, You Rongyi* (31)
- Application of Video to Monitoring Waterborne Traffic Flow *Li Yun, Xiao Yingjie* (35)
- Design of the DSP Based Radar Training System *Gu Xi, Gong Shaojun* (40)
- Satellite Image-ENC Combined Navigation Information System Based on ECDIS *Zhao Xueyang, Wang Jinlin* (45)

Machinery Electricity

- Development of the Synchronizing System for Marine Power Plants *Jia Junrui* (49)

Navigation Safety

- The Progress of Research in Maritime Vessel Trajectory Analysis *Chen Jinhai, Lu Feng, Peng Guojun* (53)
- Improvement and Experiment of Sea State Judgment Technique for Underwater Vessels *Guo Zhengdong, Wan Jun, Mo Jun, et al* (58)
- Analysis of EU Monalisa Maritime Project and Things We Should Learn from It *Peng Guojun, Zhang Xinggu, Xiang Lu, et al* (62)
- On Establishing Watch Keeping Rule for Inland Water Ships *Tian Naiqing, Ge Weixing* (67)
- Design and Implementation of Anti-collision Data Base with CBR *Zhou Shibo, Xiong Zhennan* (71)
- Calculation of Ship Roll Damping Coefficient Based on CFD *Yang Bo, Shi Aiguo, Wu Ming* (76)
- Analysis of Traffic Accidents on the Yangtze River Trunk Line Based on Probability Distribution *Zhang Jinfen, Yan Xinping, Chen Xianqiao, et al* (81)
- Analysis of Factors Influencing Large Vessels Maneuvering in Port *Lin Zhizhong* (85)
- Channel Element Generation Technique in Navigation Simulation of Waterway Regularizing Projects *Hu Weidong, Tan Zhirong, Liu Jingxian, et al* (89)
- On Reform and Improvement of Seamen's Labor Inspection System in China *Li Daze, Han Lixin* (94)

Waterborne Economics

- Current Situation and Trend of Container Rail-Waterborne Transport *Xie Xinlian, Zhao Fujie, Zhao Jiabao, et al* (100)
- Flexible Port Service System Based on Multi-Agent Technology *Liu Guiyun* (106)
- Research on Innovative Strategy of Ningbo-Zhoushan Port Services *Zhao Yaping* (111)

Ships Manoeuvre Forum

- Establishment and Operation of Simply Equipped Tidal Observatory *Shi Yong* (116)
