|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------|------|
| <b>Synthesis analogues of milbemycin and their bioactivity evaluation</b> .....                                                                                                                                           | J.H. ZHAO, M.H. JI, X.H. XU, J.L. CHENG, G.N. ZHU                              | 1391 |
| <b>Silica gel supported AlCl<sub>3</sub> catalyzed Friedel-Crafts acylation of aromatic compounds</b> .....                                                                                                               | K.P. BOROUJENI                                                                 | 1395 |
| <b>An efficient fluorination of <math>\beta</math>-ketosulfones promoted by a room-temperature ionic liquid at ambient conditions under ultrasound irradiation using Selectfluor™ F-TEDA-BF<sub>4</sub></b> .....         | M.R.P. HERAVI                                                                  | 1399 |
| <b>Asymmetric hydrogenation of aromatic ketones using new chiral-bridged diphosphine/diamine–Ru(II) complexes</b> .....                                                                                                   | Y.M. CUI, L.L. WANG, F.Y. KWONG, W. SUN                                        | 1403 |
| <b>Design, synthesis and anti-proliferative studies of a novel series of indirubin derivatives</b> .....                                                                                                                  | T.C. WANG, J.Z. WEI, C.S. GUO, H.B. ZHANG, H.X. FAN                            | 1407 |
| <b>A ligand-free Heck reaction catalyzed by the <i>in situ</i>-generated palladium nanoparticles in PEG-400</b> .....                                                                                                     | W. HAN, N. LIU, C. LIU, Z.L. JIN                                               | 1411 |
| <b>Synthesis and biological evaluation of novel <i>N</i>-(alkoxyphenyl)-aminocarbonylbenzoic acid derivatives as PTP1B inhibitors</b> .....                                                                               | Y.F. TONG, P. ZHANG, F. CHEN, L.H. HAO, F. YE, J.Y. TIAN, S. WU                | 1415 |
| <b>Facile synthesis of [1,2,4]triazino[4,3-<i>b</i>][1,2,4,5]tetrazepin derivatives by a one-pot reactions using 4-amino-3-hydrazinyl-6-methyl-1,2,4-triazin-5(4<i>H</i>)-one</b> .....                                   | H. VAHEDI, G. RAJABZADEH, F. FARVANDI                                          | 1419 |
| <b>Efficient one-pot synthesis of 1,3-diaryl-3<i>H</i>-benzo[<i>f</i>]chromenes using ferric hydrogensulfate</b> .....                                                                                                    | H. ESHGHI, G.H. ZOHURI, S. DAMAVANDI, M. VAKILI                                | 1423 |
| <b>Synthesis and biological evaluation of lipid-soluble prodrugs of anethole dithiolthione</b> .....                                                                                                                      | M. GUAN, W. FAN, S. QIAN, R.Q. XIAO, Y. WU                                     | 1427 |
| <b><i>p</i>-Toluenesulfonyl chloride as a new and effective catalyst for acetylation and formylation of hydroxyl compounds under mild conditions</b> .....                                                                | A. KHAZAEI, A. ROSTAMI, F. MANTASHLO                                           | 1430 |
| <b>One-pot synthesis of 7-aryl-11,12-dihydrobenzo[<i>h</i>]pyrimido-[4,5-<i>b</i>]quinoline-8,10(7<i>H</i>,9<i>H</i>)-diones via three-component reaction in ionic liquid</b> .....                                       | H.Y. GUO, Y. YU                                                                | 1435 |
| <b>An efficient synthesis of benzofuran derivatives under conventional/non-conventional method</b> .....                                                                                                                  | S.B. SAPKAL, K.F. SHELKE, B.B. SHINGATE, M.S. SHINGARE                         | 1439 |
| <b>A new flavone C-glucoside from <i>Glycosmis arborea</i> (Rutaceae)</b> .....                                                                                                                                           | R.K. SHARMA, S. SEMWAL, D.S. NEGI                                              | 1443 |
| <b>A new isoquinoline derivative from the leaves of <i>Magnolia sieboldii</i> K. Koch</b> .....                                                                                                                           | D. WU, R.P. WANG, S.J. SONG, L.J. WU, H.Y. GAO                                 | 1446 |
| <b><i>Cocos nucifera</i> L. water as green corrosion inhibitor for acid corrosion of aluminium in HCl solution</b> .....                                                                                                  | O.K. ABIOLA, Y. TOBUN                                                          | 1449 |
| <b>Optimization by orthogonal array design of ion-pair HPLC separation of the enzymatic hydrolysis products of yeast RNA</b> .....                                                                                        | J. HUA, K.L. HUANG                                                             | 1453 |
| <b>Determination of sulfite in water samples by flow injection analysis with fluorescence detection</b> .....                                                                                                             | L.Q. YIN, D.X. YUAN, M. ZHANG                                                  | 1457 |
| <b>Electrocatalytic oxidation of thiosulfate at 2,7-bis(ferrocenylethyl)-fluoren-9-one-modified carbon paste electrode (2,7-BFEFMCPE): Application to the catalytic determination of thiosulfate in real sample</b> ..... | J.B. RAOOF, R. OJANI, H. KARIMI-MALEH                                          | 1462 |
| <b>Determination of captopril in patient human urine using ferrocenemonocarboxylic acid modified carbon nanotubes paste electrode</b> . M.A. KHALILZADEH, H. KARIMI-MALEH, A. AMIRI, F. GHOLAMI, R.M. MAZHABI             |                                                                                | 1467 |
| <b>Electrochemical determination of vitamin C in the presence of uric acid by a novel TiO<sub>2</sub> nanoparticles modified carbon paste electrode</b> .....                                                             | M. MAZLOUM-ARDAKANI, M.A. SHEIKH-MOHSENI, H. BEITOLLAHI, A. BENVIDI, H. NAEIMI | 1471 |

|                                                                                                                                                                    |                                                                                                      |      |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------|------|
| <b>Retention behaviors of novel ionic liquid stationary phases and their selectivity for capillary gas chromatography ...</b>                                      | K. LU, W. LIU, M.L. QI, R.N. FU                                                                      | 1475 |
| <b>Isolation of lignosulfonate with low polydispersity index .....</b>                                                                                             | X.P. OUYANG, P. ZHANG, C.M. TAN, Y.H. DENG, D.J. YANG, X.Q. QIU                                      | 1479 |
| <b>Highly sensitive fluorescence quantification of irinotecan in biological fluids with the aid of second-order advantage .....</b>                                | H.Y. FU, H.L. WU, J.F. NIE, Y.J. YU, H.Y. ZOU, R.Q. YU                                               | 1482 |
| <b>Polyacrylamide hydrogels with phenylboronic acid moieties for the imprinting of proteins .....</b>                                                              | Y. WANG, Z.H. CHAI, H.Y. HE, Y.Z. JIANG, G.Q. FU                                                     | 1487 |
| <b>Poly(amaranth) film based sensor for resolution of dopamine in the presence of uric acid: A voltammetric study ....</b>                                         | U. CHANDRA, B.E. KUMARA SWAMY, O. GILBERT, M. PANDURANGACHAR, S. REDDY, S.S. SHANKAR, B.S. SHERIGARA | 1490 |
| <b>Three-dimensionally ordered macroporous cross-linked polystyrene incorporating functional group <i>via</i> hydrophilic spacer arm .....</b>                     | L.X. YUAN, X.M. WANG, X. ZHANG, P.G. LIU, W.D. YAN                                                   | 1493 |
| <b>Synthesis of polystyrene–styrene/butadiene diblock copolymers <i>via</i> reversible addition-fragmentation chain transfer miniemulsion polymerization .....</b> | Z.X. WANG, Q.H. ZHANG, Y.T. YU, X.L. ZHAN, F.Q. CHEN, J.H. XIONG                                     | 1497 |
| <b>Methyl and methane elimination in the gas phase reaction of zirconium atom with 2-butyne: A DFT study .....</b>                                                 | T.H. LI, C.M. WANG, X.G. XIE                                                                         | 1501 |
| <b>Electrodeposition of SnO<sub>2</sub> nanocrystalline thin film using butyl-rhodamine B as a structure-directing agent .....</b>                                 | J. YANG, S.L. BAI, R.X. LUO, A.F. CHEN, Y. LIN, J.B. ZHANG                                           | 1505 |
| <b>A novel polyaniline/mesoporous carbon nano-composite electrode for asymmetric supercapacitor .....</b>                                                          | J.J. CAI, L.B. KONG, J. ZHANG, Y.C. LUO, L. KANG                                                     | 1509 |
| <b>High dispersion Pt nanoparticles using mesoporous carbon support for enhancing conversion efficiency of dye-sensitized solar cells .....</b>                    | G.Q. WANG, J.F. GU, S.P. ZHUO                                                                        | 1513 |
