COVER STORY

36 **Chairman of Honghua Group Envisions Using One Trillion Cubic Metres of Natural Gas to Dissipate Smog!**

In the end of his speech, Zhang Mi showed a picture full of sci-fi elements to the audience—a self-elevating maritime hotel with hundreds of rooms standing in the ocean. “This hotel is built in Nan Sha Area of our country. We have calculated its cost, which is surely lower than that of Beijing and Shanghai as no land cost is included. People can eat and sleep at the bottom

of the ocean, watching fish, corals and natural sceneries. It’s one of a kind in the world.”

Zhang Mi said smilingly, “ocean is the biggest logistics, resources and ecology platform. With proper conservation, it’ll be yours only if you dare to think big. Honghua going towards the ocean is destined to be out of the ordinary.”

Special Report

Learn from XCMG to Keep Pace with Industry 4.0!

On Jan 7, 2014, Xuzhou, Jiangsu witnessed a revolutionary event. On this day, XCMG, leader of China's construction machinery industry with 70 years' manufacturing equipment making history founded one subsidiary company. Different from the common perception of the outside world, this subsidiary company focuses not merely on construction machinery, but also on the whole manufacturing industry of China. With this vision, it has rushed to the frontier of Industry 4.0 in a fast speed. What missions does this new company shoulder? What achievements has it made so far?
