COVER STORY

38 **The Time Travel of Sinomach: Poetry and the Dream Land**

16 years ago, 38-year-old Ren Hongbin took office as CEO of Sinomach and became the youngest leader of central enterprises at that time. Under Ren's daring reforms and mighty strategic planning, Sinomach gained a fast track of growth; its operating income surged year on year from slightly over 10 billion yuan to 100 billion yuan; in 2008, the company became the top among the 100 strongest machinery industrial companies,

and it has occupied this position ever since; in 2009, the company was rated as a A-level company in the SASAC central enterprises performance evaluation, a cheerful result kept by the company for eight years; in 2011, the company entered into the Fortune 500 Companies for the first time, and three years later it leapt to the medium range of the list...

58 Report

Central Enterprises Bet on Specialized Robots, 600 million Yuan Invested in This Small Town as the New Base!

Choosing Daye, Hubei as the new manufacturing base for specialized robots is one of the important steps for CITIC Heavy Industries to expand its market share in a relatively fast speed. "In smart manufacturing, robot

is surely with great potential for further development; industrial robots market is now a red sea with fierce competition, but for specialized robots market, great prospect awaits application. It has just begun."

Special Report

Once Called A “Zombie” Company, how did this Established Central Enterprise Arise from Ashes?

“It was not easy, it’s true. With three years, China Erzhong reversed its losses into gains and realized the goal of lifting itself from the deficits with reforms.” Sitting in front of the journalist, Liu Zuqing said emotionally. Then Liu switched the thread of conversation and strengthened his tone, “I believe that China Erzhong will develop better and stronger!”
