Pancreatic lipase inhibitory constituents from Fructus Psoraleae

GE Guang-Bo (Dr. & Prof.), Institute of Interdisciplinary Medicine, Shanghai University of Traditional Chinese Medicine. His current studies are focused on drug metabolism and the interactions between drug metabolizing enzymes and small molecule ligands.

HOU Jie (Dr. & Asso. Prof.), College of Basic Medical Sciences, Dalian Medical University. Her current researches are focused on the herbal regulation effects on activities of enzymes in gastrointestinal tract, and the relationship between the herbal medicine and enzymes related in glycolipid metabolisms.

Chinese Journal of Natural Medicines

Aims and Scopes

The Chinese Journal of Natural Medicines (CJNM) is devoted to communications among pharmaceutical and medicinal plant scientists who are interested in the advancement of the botanical, chemical, and biological sciences in support of the use of natural medicines in health care, in particular, traditional Chinese medicines (TCM). CJNM aims to cover a broad spectrum of original research papers and review articles on natural medicines or their products from all over the world, including those from TCM.

Coverages:

- Biological and Pharmacological Activity
- Natural Product Chemistry
- Chemical Analysis and Quality Control
- Pharmacokinetics and Clinical Efficacy
- DNA-based Botanical Authentication
- Medicinal Plant Resource Investigations
