## 目 次

### 基础地质

- 岩溶 IGCP 国际合作 30 年与岩溶关键带研究展望..... 章程, 蒋忠诚, Chris Groves, 等(301)
- 断陷盆地高原面典型岩溶洼地旱季土壤水氢氧同位素时空差异特征..... 霍伟杰, 蒲俊兵, 李建鸿, 等(307)
- 北京“洼里砾岩”的成因及时代探讨..... 刘元章, 刘久荣, 刘凯, 等(318)
- 云南石林县域喀斯特洼地空间分布特征及影响因素研究..... 丁智强, 俞筱桢, 高璇, 等(325)
- 鄂尔多斯盆地东南部奥陶系马五段去白云石化过程的地球化学示踪..... 李婧娟, 史云鹤, 魏柳斌, 等(336)
- 断层破碎带综合地球物理找水模式——以干田坝村探采结合井为例..... 李富, 邓国仕, 袁建飞, 等(344)

### 环境气候

- 石笋生长直径的测定及其在古气候重建中的应用..... 高滨升, 胡超涌(353)
- 开放洞穴环境变化特征及其影响因素——以桂林凉风洞为例..... 吴 夏, 潘谋成, 曹建华, 等(361)
- 山东半岛九天洞洞穴环境变化特征与影响因素..... 郑志惠, 王庆, 周厚云, 等(370)

### 水文地质

- 地下含水层水资源赋存条件及其水化学特征——以贵州省安龙县幅为例..... 屈秋楠, 宋小庆, 唐娱杰, 等(378)
- 贵州高硫酸盐地区寻找安全饮用水方法的探讨..... 方尚武, 李 强, 王若帆, 等(388)
- 羊庄岩溶水系统水化学成因及同位素特征..... 冯亚伟, 陈洪年, 卜 华, 等(394)

### 灾害地质

- 岩溶空腔水气压力脉动效应的发现及意义..... 马 骁, 蒋小珍, 曹细冲, 等(404)
- 岩溶塌陷研究现状及趋势分析..... 蒙 彦, 雷明堂(411)
- 淮南舜耕山岩溶塌陷发育特征及形成机理研究..... 黎志豪, 许光泉, 余世滔, 等(418)

### 油气地质

- 塔里木盆地新垦地区奥陶系层间岩溶储层形成机制与控制因素..... 梁乘鹏, 淡永, 徐胜林, 等(427)
- 塔河油田西北部加里东中期古水系特征及其地质意义..... 夏永涛, 刘永立, 刘存革, 等(438)
- 顺北 1 井区奥陶系断溶体油藏岩溶发育特征..... 伍齐乔, 李景瑞, 曹 飞, 等(444)

### 生态地质

- 蔗渣生物质炭对喀斯特农田石灰性土壤氮转化过程的短期影响..... 赖倩倩, 杨 霖, 秦兴华, 等(450)
- 云南省石漠化区耕地休耕对策研究..... 陈展图, 杨庆媛(458)
- 1985—2014 年漓江流域景观格局动态变化研究..... 林增学(466)

## CONTENTS

|                                                                                                                                                                                            |                                                         |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------|
| 30 years international cooperation with IGCP and perspectives of karst critical zone research .....                                                                                        |                                                         |
| .....                                                                                                                                                                                      | ZHANG Cheng, JIANG Zhongcheng, GROVES Chris, et al(306) |
| Spatial and temporal variations of soil water $\delta D$ and $\delta^{18}O$ values in dry season in a typical karst depression of a karst graben basin, Yunnan Province, south China ..... | HUO Weijie, PU Junbing, LI Jianhong, et al(317)         |
| Discussion on formation mechanism and age of Beijing Wali conglomerate .....                                                                                                               |                                                         |
| .....                                                                                                                                                                                      | LIU Yuanzhang, LIU Jiurong, LIU Kai, et al(324)         |
| Study on spatial distribution characteristics and influencing factors of karst depressions in Shilin county, Yunnan Province ..                                                            |                                                         |
| .....                                                                                                                                                                                      | DING Zhiqiang, YU Xiaoya, GAO Xuan, et al(335)          |
| Geochemical tracing to the dedolomitization process of Ordovician Ma-5 in the southeast of Ordos basin .....                                                                               |                                                         |
| .....                                                                                                                                                                                      | LI Jingjuan, SHI Yunhe, WEI Liubin, et al(343)          |
| Comprehensive geophysical model for water prospecting in fault fracture zone: A case study of water supply well siting at Gantianba village .....                                          | LI Fu, DENG Guoshi, YUAN Jianfei, et al(352)            |
| Measurement of a stalagmite diameter and its application for paleoclimate .....                                                                                                            | GAO Binsheng, HU Chaoyong(360)                          |
| Characteristics of open cave environment and its influencing factors: A case study of Liangfeng cave, Guilin .....                                                                         |                                                         |
| .....                                                                                                                                                                                      | WU Xia, PAN Moucheng, CAO Jianhua, et al(369)           |
| Variability of cave climate environment and influencing factors of the Shandong peninsula Jiutian cave .....                                                                               |                                                         |
| .....                                                                                                                                                                                      | ZHENG Zhihui, WANG Qing, ZHOU Houyun, et al(377)        |
| Groundwater occurrence condition and hydrochemical characteristics: A case study of Anlong county map sheet in Guizhou Province .....                                                      | QU Qiunan, SONG Xiaoqing, TANG Yujie, et al(387)        |
| Discussion on the method of searching for safe drinking water in high-sulfate areas of Guizhou Province .....                                                                              |                                                         |
| .....                                                                                                                                                                                      | FANG Shangwu, LI Qiang, WANG Ruofan, et al(393)         |
| Hydro-chemical genesis and isotope characteristics of Yangzhuang karst water system .....                                                                                                  |                                                         |
| .....                                                                                                                                                                                      | FENG Yawei, CHEN Hongnian, BU Hua, et al(403)           |
| Discovery and significance of water-gas pressure pulsation effect within karst cavity .....                                                                                                |                                                         |
| .....                                                                                                                                                                                      | MA Xiao, JIANG Xiaozhen, CAO Xichong, et al(410)        |
| Analysis of situation and trend of sinkhole collapse .....                                                                                                                                 | MENG Yan, LEI Mingtang(417)                             |
| Study on the development characteristics and formation mechanism of karst collapse development in Shungeng mountain, Huainan City .....                                                    | LI Zhihao, XU Guangquan, YU Shitao, et al(426)          |
| Interlayer karst reservoir characteristics and development controlling factors of Ordovician in the Xinken area, Tarim basin ..                                                            |                                                         |
| .....                                                                                                                                                                                      | LIANG Chengpeng, DAN Yong, XU Shenglin, et al(437)      |
| Characteristics and geological significance of middle Caledonian palaeodrainage pattern in the northwest of Tahe oilfield .....                                                            |                                                         |
| .....                                                                                                                                                                                      | XIA Yongtao, LIU Yongli, LIU Cunge, et al(443)          |
| Characteristics of fault-karst carbonate reservoirs in the Shunbei NO. 1 well block, Tarim basin .....                                                                                     |                                                         |
| .....                                                                                                                                                                                      | WU Qiqiao, LI Jingrui, CAO Fei, et al(449)              |
| Study on short-term effects of sugarcane biochars on nitrogen transformation in calcareous soils in karst farmland ..                                                                      |                                                         |
