

Vol.8 No.2 May 2011
(Quarterly, started in November 2004)

As the transaction for Foundry Institution of Chinese Mechanical Engineering Society (FICMES), *CHINA FOUNDRY*, published quarterly to a worldwide readership in English by Foundry Journal Agency, covers the whole fields of foundry technology for iron, steel and non-ferrous castings, including sand molding casting, die casting, investment casting, etc. It mainly reports advanced scientific and technical achievements, applied technology, successful experiences in production organization, management and leadership, recent developments and industry information. The Foundry Journal Agency is not responsible for statements or opinions advanced by authors of papers or articles printed in the publications. *CHINA FOUNDRY* is indexed by Thomson's Science Citation Index-Expanded (SCI-E) (beginning with the first issue of 2007), Chemical Abstracts (CA), Cambridge Science Abstracts (CSA), Abstract Journal (AJ) and Elsevier's largest abstract and citation database - Scopus and so on.

Contents

Research & Development

- 161** Curing mechanism of furan resin modified with different agents and their thermal strength
Huang Renhe, Gao Hongmei, Tang Yaoji, et al
- 166** An investigation on bonding interface microstructure of ceramic coating prepared on AZ91D by evaporated pattern casting technique
Chen Dongfeng, Dong Xuanpu, Fan Zitian, et al
- 172** Effect of temperature field on solidification structure of pure Al under pulse magneto-oscillation
Li Bo, Yin Zhenxing, Gong Yongyong, et al
- 177** Using finite difference method to simulate casting thermal stress
Liao Dunming, Zhang Bin, Zhou Jianxin, et al
- 182** Optimization of casting process based on the theory of inventive problem solving
Liu Feng, Yang Yi, Li Xianglong, et al
- 187** Study on roasting process of zircon-silica sol ceramic mould
Zhang Yeming, Zeng Ming, Hu Li, et al
- 190** Interaction mechanism between niobium-silicide-based alloy melt and Y_2O_3 refractory crucible in vacuum induction melting process
Gao Ming, Jia Lina, Tang Xiaoxia, et al
- 197** Effect of casting technology on microstructure and phases of high carbon high speed steel
Zhang Tianming, Wang Qinjuan, Song Xuding, et al
- 202** Effect of potassium on as-cast microstructure of a hypereutectic high chromium cast iron
Liu Qing, Yang Hua, Ding Haimin, et al
- 207** Electromagnetic characteristics of square cold crucible designed for silicon preparation
Chen Ruirun, Huang Feng, Guo Jingjie, et al
- 212** Improvement of humidity resistance of water soluble core by precipitation method
Zhang Long, Li Yuancai and Zhao Wei
- 218** Solidified structure of thin-walled titanium parts by vertical centrifugal casting
Wu Shiping, Xu Qin, Zhang Jun, et al
- 223** Sn60Pb40 solder powders produced by the planar flow casting atomization process
Xiang Qingchun, Zhao Jing, Pan Haicheng, et al

An Informative Window on China's Foundry Industry

Overseas Foundry

- 228** Improving chill control in iron powder treated slightly hypereutectic grey cast irons
Iulian Riposan, Mihai Chisamera, Stelian Stan, et al
- 235** Graded coal — its role in iron casting production from greensand systems
Alexander Brown

Serial Report

- 239** Colour Metallography of Cast Iron
Chapter 4: Vermicular Graphite Cast Iron (II)
Zhou Jiyang, Professor, Dalian University of Technology

Information

- 247** In Memory of Professor Chen Liliang
- 249** The First Batch of Enterprises with "AAA", "AA" and "A" Credit Rating in Chinese Foundry Industry
- 251** The Guiding Catalogue of Out-dated Casting Processes, Equipment and Products in Chinese Foundry Industry
- 252** Winners of "Yeong Guan Cup"
- 254** Delegation of Korea Foundry Society Visited Foundry Institution of Chinese Mechanical Engineering Society
- 255** *FOUNDRY* — Winner of a Nomination for the 2nd Chinese Government Award for Publishing
- 256** Serving Foundry Industry with Good Faith, Providing Strong Journal with Innovation
— Record of *FOUNDRY* journal's road of innovation and development
- 258** Asia-Pacific Diecasting Industry Exhibition, Sept., Dongguan, China
