CONTENTS

Vol.10 No.1 January 2013

Special Report

- 1 Discussion on manufacturing techniques of Chen Zhang Pot
Fan Taofeng, Wan Li, and Zhang Hui

- 7 Research and application of enterprise resource planning system for foundry enterprises
Zhou Jianxin, Ji Xiaoyuan, Liao Dunming, et al

Research & Development

- 18 Effect of Bi modification treatment on microstructure, tensile properties, and fracture behavior of cast Al-Mg₂Si metal matrix composite
Wu Xiaofeng, Wang Zhe, Zhang Guangan, et al

- 24 Microstructural evolution of directionally solidified DZ125 superalloy castings under different solidification methods
Ge Bingming, Liu Lin, Zhang Jun, et al

- 29 Relationship between micro-porosity and tensile properties of 6063 alloy
Li Xiehua, He Lizi, Zhu Pei, et al

- 34 Influence of annealing and spheroidizing treatment on microstructure and mechanical properties of AZ91 magnesium alloy
Zhang Jumei, Wang Zhihu, Jiang Bailing, et al

- 39 Grain refinement of AZ91D alloy by intensive melt shearing and its persistence after remelting and isothermal holding
Zuo Yubo, Fan Zhongyun and Cui Jianzhong

Overseas Foundry

- 43 Latest advances and developments in aluminum shape casting
Qigui Wang

- 50 A comparative study of interface reconstruction algorithms in molten metal flow
Young-Sim Choi, Jun-Ho Hong, and Ho-Young Hwang

Information

- 57 Introduction to Patents
- 60 Mr. Lee Yuen Fat & Ka Shui Group
- 62 Review of five foundry standards recently passed
- 64 The Engineering Frontiers Symposium on Advanced Materials Processing Technology and Through Process Modeling & Simulation was successfully held at Tsinghua Unisplendour International Center
- 65 Call for papers
- 66 Industry News
