CONTENTS

Vol.10 No.3 May 2013

Research & Development

- 135 Study on dry friction and wear resistance of a WC-Co particle reinforced iron matrix composite material
Zhang Peng, Zeng Shaolian, Zhang Zhiguo, et al
- 141 Effect of shrinkage porosity on mechanical properties of ferritic ductile iron
Wang Zehua, Zhao Weihua, Zhou Zehua, et al
- 148 Combined effects of ultrasonic vibration and manganese on Fe-containing inter-metallic compounds and mechanical properties of Al-17Si alloy with 3wt.%Fe
Lin Chong, Wu Shusen, Zeng Jinbiao, et al
- 155 Microstructure and mechanical properties of a new type of austempered boron alloyed high silicon cast steel
Chen Xiang and Li Yanxiang
- 162 Influence of high magnetic field on as-cast structure of Cu-25wt%Ag alloys
Li Guimao, Liu Yan, Su Yan, et al
- 167 2-D boundary-fitted coordinate grid generation for casting with complex shape
Wang Ye, Wu Shiping, Xue Xiang, et al
- 172 Effect of withdrawal rate on microstructure of a hypoeutectic Al-Si alloy by low superheat DC casting
Zhao Dazhi, Liu Fang, Yu Fuxiao, et al
- 176 Semi-solid A356 alloy slurry for rheocasting prepared by a new process
Liu Zheng, Liu Xiaomei and Mao Weimin

Overseas Foundry

- 181 Criteria for an advanced assessment of quality of moulding sands with organic binders and reclamation process products
R. Dańko
- 187 Effects of displacement boundary conditions on thermal deformation in thermal stress problems
S. Y. Kwak, C. H. Lim and J. H. Nam

Information

- 195 Introduction to patents
- 197 New competition regulations & preliminary evaluation results for the Fourth "Yeong Guan Cup" Casting Process Design Competition for Chinese University Students
- 199 Seven enterprises obtain "AAA" credit rating in the third batch of enterprises' credit rating appraisal in China's foundry industry
- 201 The Sixth China Foundry Quality & Standard Forum
- 202 FICMES delegation attends American Foundry Society's 117th Metalcasting Congress and CastExpo'13
- 203 Three enterprises advance from primary "AA" to the highest "AAA" after reevaluation of the second batch of enterprises with "AAA", "AA" and "A" credit rating in China's foundry industry
- 204 Industry News
