# CONTENTS

Vol.10 No.4 July 2013

## Research & Development

- 207 Investigation on corrosion behaviour of as-extruded near eutectic Al-Si-Mg alloy by neutral salt spray test  
*Wu Yuna, Liao Hengcheng, and Yang Jian*
- 213 Effect of ultrasonic treatment and Sr addition on microstructure of Al-20%Si alloy  
*Miao Long, Lu Yiping, Zhang Yubo, et al*
- 217 Effect of inter-critical quenching on mechanical properties of casting low-alloy steel  
*Liu Zhongli and Shang Yong*
- 221 Evolution of rheocast microstructure of AZ31 alloy in semisolid state  
*Xing Bo, Li Yuandong, Ma Ying, et al*
- 227 Modeling and analysis of porosity and compressive strength of gradient Al<sub>2</sub>O<sub>3</sub>-ZrO<sub>2</sub> ceramic filter using BP neural network  
*Li Qiang, Zhang Fengfeng, Yu Jingyuan, et al*
- 232 Study on typical hole defects in AZ91D magnesium alloy prepared by low pressure lost foam casting  
*Li Jiqiang, Zhao zhong, Fan Zitian, et al*
- 237 Feature study of body-fitted Cartesian grids used in casting numerical simulation  
*Li Ri, Wang Bin, Xiong Shoumei, et al*
- 244 Microstructure evolution of an Mg-Zn-Nd-Zr magnesium alloy during recrystallization and partial remelting process  
*Tao Jianquan, Wan Yuanyuan, Sun Changjian, et al*

## Overseas Foundry

- 248 Hot cracking susceptibility of AlSi7MgCu alloys and effects of alloying elements magnesium and copper  
*Thomas Pabel, Salar Bozorgi, Christian Kneiss, et al*
- 254 Observation and characterization of flow in critical sections of a horizontal pressurized gating system using water models  
*Jaiganesh Venkataramani and Prakasan Kalakkath*

## Information

- 263 Introduction to patents
- 264 Final defense and awards ceremony of the Fourth "Yeong Guan Cup" Casting Process Design Competition for China University Students
- 267 Report on the exhibitions held in Suzhou city in 2013 by CFA
- 269 People in foundry field of China
- 270 Industry News

## SAC/TC54 Event

- 272 Post-conference report for the Sixth China Foundry Quality & Standards Forum: Latest production Processes and Quality Control of Iron Castings
- 276 Mechanical industry standard on "High purity pig iron for foundry" passed the review
