

VACUUM AND CRYOGENICS

Vol. 16, No. 2, 2010, Quarterly

Contents

Overview

- The analysis of quality control and property influence in the field of electron beam surface modification YU Bin, LIU Zhi-dong, JIN Qing-chen, et al(63)

Reports of Research

- Capability and benefit of the ion propulsion system for NSSK mission of GEO satellites ZHANG Tian-ping, TIAN Hua-bing, SUN Yun-kui(72)
- Lunar dust accumulated mass monitor by solar cell ZHUANG Jian-hong, WANG Xian-rong, WANG Yi, et al(78)
- Method of vacuum grease outgassing in suit measuring and ingredients analysis FENG Jie, WANG Xian-rong, WANG Yi, et al(81)
- Thermal insulation system design and optimization for space liquid helium cryostat BAI Xiao-ming, PAN Yan-pin, ZHANG Wen-rui, et al(85)
- Light emitting properties and microstructures of alumina thin films CHU Han-qi, LI He-qin, NIE Zhu-hua, et al(90)
- Heat transfer characteristic under coil arrangement on ice-on-coil storage tank FANG Pei-ming, WAN Chao, XIN Tian-long(95)
- The power manage and control for cathode in ion propulsion system CUI Tie-min, TANG Fu-jun(99)
- The study of RF oscillator circuit with feedback for rubidium spectral lamp ZHANG Jin-hai, TU Jian-hui, LIANG Yao-ting, et al(105)
- Investigation improvement activation of GaN negative electron affinity photo-cathodes ZENG Zheng-qing, LI Chao-mu, WANG Bao-lin, et al(108)

Knowledge and Development

- The research review of hollow cathode in electric propulsion system SUN Ming-ming, GU Zuo, GUO Ning, et al(113)
- Experimental study on cool storage and discharging characteristics of ice storage tank FANG Pei-ming, WAN Chao, XIN Tian-long(118)
