2016

第30卷 第4期

一串铃三号

特征特性

早熟,从出苗至嫩瓜始收25~30 d。植株蔓生,生长的势中等,耐肥,适应性强。第1朵雌花着生于主蔓第4~7节,着瓜密,一般3~4瓜,多至4~5瓜连续着生,形如一串铃。嫩瓜圆球形,表皮深绿色间有白色点状斑纹,故又名“花皮-串铃”南瓜。食用嫩瓜单瓜重0.4~0.5 kg,口感脆嫩,味凉;老瓜扁圆形,表皮黄棕色,老瓜单瓜重1~2 kg,口感粉糯,品质佳。品比试验前期嫩瓜平均亩产量7785 kg/hm²,全期嫩老瓜平均产量30 879 kg/hm²。

CONTENTS

Construction of BAC physical map on chromosome A9 in <i>Brassica juncea</i> and comparative genome analysis	LIU Fangying, LU Ying, WANG Zhuo, et al (347)
Construction and analysis of BAC contigs around the yellow – seeded locus of the chromosome B03 in <i>Brassica juncea</i>	XU Haipeng, LIU Xianjun, LU Ying, et al (353)
Comparative experiment of new introduced rice varieties in Luxi county	WU Yongsheng, FU Xingtie, TAN Shansheng, et al (359)
Brief report for the comparative experiment of japonica rice varieties in Leiyang city	CAI Donghua, GU Yuan, LI Hua, et al (362)
Influence of seedling raising substrates on seedling quality and mechanical transplanting quality of the female parent in hybrid rice seed production	YUAN Lu, WANG Ming, ZHANG Haiqing, et al (364)
Study on the effect of dehydrating agent on hybrid rice seeds in field	LIU Zhao, LIU Aimin, ZHANG Haiqing, et al (370)
Research on the fertilizer management approach of late – rice under moistening irrigation	WANG Xuehua, CHENG Yinzhou, YANG Quan, et al (376)
Preliminary study on the effects of granular calcium cyanamide fertilizer applied in rice cultivation	TANG Lizhong, LIU Sichao, LI Chao, et al (381)
Effects of rice husk charcoal and humic acid on the resistance physiology and yield of <i>Oryza sativa</i> L	XING Jiayun, YI Zili, XIAO Liang, et al (387)
Comparison of the characters of early and middle maturity rape varieties	HUANG Yiguo, ZHANG Xuekun, ZHANG Yi, et al (393)
Cytological observation of anther development on male sterility in <i>Brassica napus</i> L. induced by chemical hybridization SX-1	LUO Haiyan, GUAN Chunyun (397)
Research on the distribution of heavy metal in corn plants	SUN Jiaohui, CHEN Tingting, QIU Bo, et al (402)
The prequalification test of new self – breeding flue – cured tobacco varieties (strains)	PENG Miao, ZHU Lieshu, LI An, et al (406)
Study on the combination of final harvest date for upper leaves of flue – cured tobacco and sow – transplant period of late rice	CAO Youren, WEN Shengxian, YAN Hehong, et al (412)
Effects of planting density, nitrogen levels and its interaction on economic character of paddy – tobacco	LI Hailin, YU Qingtao, ZHANG Guangli, et al (417)
Analysis on the contents of the trace available nutrient elements in tobacco planting soil in Sangzhi county	ZHOU Tian, DAI Linjian, ZHANG Yidan, et al (422)
Study about the industrial usability of the loose flue – cured tobacco leaves with different appearance and quality	LI Yujiang, BAO Kexiang, CHEN Shaobin, et al (425)
The breeding and cultivation techniques of new cassava variety ‘Guiken 09 – 26’	LIU Lianjun, LI Hengrui, LI Ping, et al (429)
Study on the control efficiency of different botanical pesticides on <i>Heficoverpa assulta</i> and <i>Spodoptera litura</i> of tobacco	SHANG Xuehua, GUO Wei, ZHOU Fumei, et al (434)
Present research situation, questions and developmental advises of high oleic acid rapeseed	ZHANG Zhenqian, HU Qingyi, GUAN Chunyun (462)
Reflection on the development of the breeding of burley tobacco in China	WU Chenglin, HUANG Wenchang, CHEN Junqi, et al (475)
